LEGION R. O. T. C. FIELDFDAY MAY 11; W. C. TAYLOR APPOINTED MANAGER

The annual Rifle Match in Morrisville, McGehee Tyson Post, represented, afternoons to be given over to competitive Drill and Parade. Caps, Sword, and Ribbon are offered as prizes. VOCATIONALS GET FULL HOLIDAY—REST OF UNIVERSITY GETS HALF.

The vagas rumors which have been circling around the Hill since the first of the year with regard to a repetition of last year's Field Day, have at last crystallized into facts, and the date for the event has been fixed as May 11th. Mr. Taylor, better known as "Cap" Post, the regular University Army, O. T. C. The afternoon events will be competitive drills from which the best drilled cadet, and the best drilled company of the University R. O. T. C. battalion will be picked, and a special battalion parade in honor of the best drilled cadet. This Field Day program is a joint activity staged by the Military Department of the University and McGehee Tyson Post No. 124, American Legion.

The rifle match will take place about 9 a.m. Each of the three teams will consist of six men. Each man will be allowed 500 shots at the target. The target which of the three teams will have the highest average score will be declared the winner, and receive a small trophy. The "Ike" M. Edwards Jeweler Store, of Knoxville, has been chosen to equip the Legion team. It is well fitted for the position, and is the most efficient. The 11th U. S. Infantry during the war. He served in the State Hill for his services, and was on the border in 1912. Capt. Baker states that what is going on for the Legion team and that this is to be held in Ross Hall on Monday until the match takes place.

The Regular Army Team will consist of the officers who are instructors in the Military Department, in addition to the O. T. C. team will, of course, be drawn from the members of that cadet battalion.

The initial event of the afternoon program, which will begin at 12:30, will be the competitive drill between the fifteen best drilled cadets from the battalion—the two companies from each of the five companies—to determine the very best drill cadet in the battalion. Nothing of its appearance and ability to execute the drill to the mark, the different faces, etc., will be the basis upon which this competition will take place. The prizes offered for the winner of this contest is a sword given by General L. H. Thomas, Knoxville, and the legislature of McGehee Tyson Post. The winning man will receive $25 upon the large silver cup also awarded to the winning company and competed for each year.

This inter-company competition will be followed by the parade. All of the five regular companies will be represented. Each company will have its man and the Captain, according to the large silver loving cup. In addition, every member of the company will be assigned with a ribbon commemorating his efforts during the past year at McGehee Tyson Post.

The military department at this time will present a loving cup to the sponsor of the winning company, and a trophy to the winning company. The tournament was to be held on the afternoon of the day, the annual military hop will take place on the evening of the 11th.

NEWLY WEDS HONORED AT NUNLEY HOME

Many Vocational Instructional Department Officers and girls from the Knoxville Home in Honor of Mr. and Mrs. Krueger.

The blessings of marriage are not confined merely to the happy couple, but often extend to their friends. In the case of the marriage of Mr. and Mrs. Krueger this has happily proved true, and the entire municipality of Knoxville is invited to celebrate with them the means of bringing so many happy occasions to so many. The marriage announcement will be made by the family through the Knoxville Post and the Knoxville Post Home. The guests of honor will be the teachers of the Knoxville Post and the Knoxville Post Home.

The marriage will take place at 11 A.M. on the large silver cup, after the ceremony, the happy couple will be driven to McGehee Tyson Post, where they will remain until the reception at 4 P.M.

The reception will be held at 4 P.M., and will be the occasion for the entire Knoxville Post and the Knoxville Post Home to extend their congratulations to the newly married couple. The guests of honor will be the teachers of the Knoxville Post and the Knoxville Post Home.

The reception will be held at 4 P.M., and will be the occasion for the entire Knoxville Post and the Knoxville Post Home to extend their congratulations to the newly married couple. The guests of honor will be the teachers of the Knoxville Post and the Knoxville Post Home.

The resolution is the result of the hard work and dedication of the Association in its efforts to maintain the rights and privileges of its members. The Association has been working hard to ensure that its members are treated fairly and equally in all aspects of employment. The Association has been working hard to ensure that its members are treated fairly and equally in all aspects of employment.

Make Provision For Your Old Age

One man says, "Every veteran will have one old man down here. It will be his own. He will be himself!" However, it is not possible for any veteran of this generation to imagine the hardships and privations that many of their predecessors experienced. These hardships often led to health problems and financial difficulties. The need for a system to ensure that veterans are taken care of after they retire is evident.

The Veterans Bureau has created the "Veterans Bureau Old Age Pension Plan" to help veterans and their families. This plan provides a monthly benefit to eligible veterans and their families. The benefits are based on the veteran's years of service and the amount of money they contributed to the plan while they were in the military. The benefits are paid in a lump sum or in a series of monthly payments.

The benefits are paid to the veteran or their family members if the veteran lives to age 60. If the veteran dies before age 60, the benefits are paid to the family of the veteran. The benefits are taxable income and are reduced if the veteran has other sources of income.

The benefits are automatically adjusted for inflation, so they will continue to be the same amount of money each month, even as the cost of living increases.

The "Veterans Bureau Old Age Pension Plan" is a great way to ensure that veterans have a secure retirement. It is a system that is designed to help veterans and their families live a comfortable life in their retirement years. It is a system that is designed to help veterans and their families live a comfortable life in their retirement years.

THE NEW "VOICE"

It is a great pleasure to the staff of the "Vocational Voice" to present the new and improved form of this issue. We will let the changes be our excuse for the delay in getting the paper out. It takes a good deal of time to make the necessary alterations in the advertisements, and get located in a new shop, but it is our conviction that this delay will be considered justified by everybody concerned.

A larger-sized sheet has been the ideal of the Publication Council and the Staff from the very first. The advantages of the extra copy, over the old are many and obvious. Of special value is the fact that it affords an opportunity for good display in both news articles and advertisements. What the "Voice" needs now is to gain as much in sub-stuffing as it has in size. By this means, there is no reason why any real news should be contributed to it by vocational students. As has been said many times before this on very subject, no paragraph of any appreciable interest or large number of different kinds of people, unless it draws from a great variety of sources. In order for the "Vocational Voice" to be of assistance to all the members of this Vocational Department, there must be found in it news from every class or group in the school. Now it is not possible for one group to cover all of the kinds of material large enough to fill as much news as is required for the better interests of the paper. We can not get around and dig it all cut; it is too much work for anyone who sits down in a school and tries to find all that which would look good in the paper; you can look somebody up and tell them about it, or better still, write it up and turn it in yourself. If you have no confidence in your ability to compose, jot down the facts and turn them in. Remember, the writing for the paper should be dropped in the box of "Vocational Voice" printed on the lid. Don’t delay—write anything and everything up as the day it happens, and trust the editor for the rest.

One word more: If you like the looks of the newspaper, do not forget that it is possible that the advertisement you have money to spend somewhere; spend it with the men who are standing by you. In the columns of this paper you will find that every kind of product is advertised that you do business with. Divert your trade to the firms that have confidence and interest enough in us ex-service men to help us publish our paper.

The New "Voice" Can Speak Leader for You Than the Old—Back It Up!

PHIL OSSFUR'S COLUMN

Honors is only skin-deep; to prove it just scratch down to the skin on the face of the average modern female, and you will find you have scratched off all of the beauty off.

The Hindenburg like it is broken; The U.S. Navy is on the rocks. The News, now an army of priests are making those “holy” words in the world....

Was there ever such a ridiculous nonsense of the sublime with the ridiculous? It is perfectly ridiculous as when Easter fell on April Fool’s Day.

Nature can get away with such as the modern thing of putting a war on a war. Shakespeare did not successfully steal in his plot his citizens, he brought in a law. Shakespeare was a good citizen, but his servant in Mackbeth, who imagined himself to be God, he forgot to get the real meaning of the thing. Shakespeare applauded as nearest of all the sons of Adam to the breadth of scope, and depth of significance of Nature. The shell work of France is fast healing; Malaysia gives rise in the vain; The Tyrant who held Vindola now finding The harcer by far to hold form. Laid a little money and it may come back in a long time after you agree to see your “pull” with a friend in his work. "Pull" and "pull," will last in long time if they are not made use of. Be on your guard, possess your bag, but do not get too tight; it is fat. The "louse" has gone back to a dirty farm war's desolation work. But though old of the pack he still smiles. He’s glad to lose thousands of pounds. "Play them, black man, can’t you play?" play. All the white men, Tyrants of Asia, coolly join them.

ALL SPALDING

D. A. V. DANCES GREAT SUCCESS
Begun March 10th. Attendance Has Practically Doubled at Each Successive Dance.

WILL BE CONTINUED IN-DEPENDENTLY THIS TUESDAY AND SATURDAY EVENING.

Knoxville Symphony Orchestra, Fire Five-Piece Concert Band, to Make Music.

The dances which are being held under the auspices of Whipping Tindeer Club, the D. A. V., are proving remarkably successful. From the reports beginning on the evening of March 30th, at which time the last of the series opened, there was a noticeable dearth of dance guests. The executive board of the corporation was scheduled to meet on Thursday evening of last week, in order to take up matters of interest, in the event the last of the dances in the series, which is scheduled for March 30th, was not so successful as was expected. There is no doubt that the next dance of the series, to be held on April 3rd, will receive even more favor than the last of the series.

PATRON SHOP IS TUNEFUL LOCATION

If the "Voice" of the Patron Shop has not been heard abroad, is only because no one has been close enough to hear it. If it comes within half a mile of Eats- town you can not fail to hear the music of the bees. The buzz of the Patron Shop seems to inspire those all along its line with musical talents to do their best— or worse, rather. If you listen— what is that peculiar falsetto you hear not? The Vicar people only happen to know about it, because we have been down under the Hill of 0-5-10; there would be a most reciting tent that would make Robinson Crusoe take a back seat. If you will not take the statement for its face value, ask the Highway Engineers. It is too bad there are no weddings to report from this class, but the reason is perfectly logical. All except three of our boys have already had their experience since, and a few unlucky ones have been married twice. Bill Reed, W. L. ("Bill") Williams, and John H. Bly, have been going around the edges of the Sea of Matrimony for forty years. They have conscientiously sent out the 5-0-10, and have been assiduously trying to get out by blank silences only. Any boy who has been in Patron for any length of time will not be found so much the worse for that fact that he has a "pattern" husband.

NOTICED IN SCIENCE

Science is doing some really progressive work just now. We have seen it written somewhere that "every region desiring to have any little cabinet, toy, etc., come to us and tell us your needs, we will try to meet them as far as possible." The department is most active; it is practically a "department."--

MAKING THE DESIGNERS OUT dài in making the designs of those who are not the best in the world, and have the greatest desire to have any little cabinet, toy, etc., come to us and tell us your needs, we will try to meet them as far as possible.
